Kelair Pumps exhibiting at Austral-Asian Oil & Gas, Stand Number 96

With record seismic and exploration activity off the Australian coast, Kelair Pumps, a supplier to the oil and gas industry, is excited to be exhibiting its latest range of products.

Visitors to the stand will be able to see the following:

- HMD GSP (API685 1st edition sealless centrifugal pump)
- BORNEMANN W2 Running model (API675 twin screw pump)
- LABOUR LVB ANSI (B73.1 ANSI standard centrifugal process pump)
- LABOUR VERTICAL TABER (Sump pump)
- PULSADEEDER PULSAR 25H (API676 chemical injection pump)
- SANDPIPER S20 (Air/gas-operated double diaphragm pump)
- SANDPIPER S1F (Air/gas-operated double diaphragm pump)
- VIKING (API675 internal gear pump)

To ensure you are kept up to date with the latest technology, please visit us on Stand Number 96 where a sales engineer will answer any questions you may have and make available our Product Catalogue CD, and product literature.
