### Introducing Kelair's new Building & Fire Division Manager

With a background in tendering, sales and project management at Weir Pumps, headquartered in Scotland, Australian-born Rod Kington has taken over the role of Division Manager following the resignation of David Collom.

Rod has spent the last 6 years solving pump and pump systems issues. He will be assisted initially by Jeff Greely from Brown Brothers Engineers Australia Pty Ltd, whose technical knowledge is highly respected in the industry.

After serving an apprenticeship as an electro-mechanical fitter, Rod comes to Kelair highly qualified, with a Bachelor degree (Hons) in Electrical and Electronic Engineering, and an MBA from Strathclyde Graduate Business School.

With Kelair's products fully-backed by our Service Division, we have the expertise to install, commission and provide through-life service for all our products.

Don't hesitate to contact Rod if you require any assistance:

Kelair Direct: 1300 789 466  
Rod Direct: 02 9672 0124  
Mobile: 0415 553 700  
E-mail: rkington@kelairpumps.com.au

*"It is my aim to build on Kelair's history of providing high-quality pumping solutions to our customers in the building and fire markets."*

**Hydrovar Presentation by Jeff Greely - Perth 14th July 2005**  
25 selected Kelair customers, covering fire pump selection
